

SERVICES

Cyberex® Power Protection Services

Project management

Project management is a value added consultant service designed to provide four (4) major service benefits.

To schedule service call:
800 CYBEREX
(292 3739)

1. Power consultancy

Expert consultation advice in the matters of UPS, STS, PDU batteries, etc.

2. Customer liaison

Serves as liaison between customer, main contractors, and consultants

- Present at site surveys and site meetings
- Accompaniment during factory acceptance tests
- Resolves any contractual issues which may arise

3. Documentation coordination

Preparation and submission of all necessary contractual documentation and drawings

- Site testing and acceptance documentation
- Operation & maintenance manuals
- Compliance with contractual requirements

4. Installation management

Ownership and acceptance of total project responsibility while on site

- Ensures projects are executed in accordance with customer's requirements
- Works with the local inspector to ensure code compliance, etc.
- Coordination and arrangement of on-site commissioning and testing of equipment
- Appointment, coordination, and supervision of multi vendor services and sub-contractors
- Ensures adequate and correct delivery, unloading, and positioning of equipment
- Works with all approved installation sub-contractors

Benefits to customer

- Ensures peace of mind from delivery to project completion
- One stop shop for all your project management needs
